The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

The smaller granite sink **Aquasanita - Helika Bella 670.5E** has an innovative design. The sink features a smaller so-called ledge on the side, designed for installing a faucet, eccentric control, or even embedding a soap dispenser. The dimensions of this corner will allow you to conveniently arrange all accessories and also use them comfortably in everyday life. The kitchen sink will surprise you with its practicality and well-thought-out details to facilitate your daily activities in the kitchen. The sink also offers a draining area with a groove in the middle. The draining board is slightly sloped so that water flows back into the sink. The maintenance of the sink is extremely easy.

One of the components of the Bella 670.5E sink is **eccentric control**. The automatic drain closure is a system that allows you to close and open the water drain using a button. An important advantage of this solution is the fact that one movement is enough for instant unlocking of water without having to immerse your hands.

The advantage of a granite sink is its **color variability** and the possibility to match it with the rest of the kitchen, easy maintenance, and attractive design. The main advantages include excellent resistance to impact, scratches, and high temperatures.

The sinks by Aquasanita are made of a very high-quality granite material **SILISCANA**, it is a third generation granite known for its strength and durability.
