The company **Aquasanita** is one of the most well-known manufacturers of kitchen equipment on the market. They export over 80% of their products to more than 30 countries worldwide. Aquasanita sinks and faucets meet the most demanding requirements for processing and quality of construction.

Elegant lever stand mixer **Aquasanita Modus 2383** with pull-out shower. The mixer stands out in any kitchen style.

The surface of the sink faucet is made of crushed granite. A black granite faucet, as well as a sand-colored, white, or gray one, will perfectly complement a granite sink in similar shades. Of course, it is also possible to use this lever faucet with stainless steel sinks, where it will enhance the overall impression of the washing area.

It is a **higher model** of a countertop battery, so dishwashing will be more comfortable. At the same time, during normal activities in the kitchen, you will appreciate the pull-out shower. For example, when showering/washing fruits and vegetables, showering the sink from dirt, or filling a pot with water.

The granite sink faucet is equipped with a high-quality 40mm ceramic cartridge from the Kerox brand and a water-saving Neoperl aerator. The surface of the faucet is cleaned similarly to the sink made of the same material, if necessary, simply wipe it with a damp cloth and regular soap.

### **Key features of the AQUASANITA MODUS 2383 kitchen faucet**

- granite faucet Modus 2383 in white, black, gray, and beige color
- high-quality lever faucet from the trusted brand Aquasanita
- ceramic cartridge Kerox
