The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

The classic granite kitchen sink with a drainer from **Aquasanita Helika Notus 765.0E** measuring 765 x 460 mm is an ideal solution for any kitchen. You can easily choose a chrome or granite tap to go with the sink.

The depth (19 cm) of the sink is sufficient for comfortable washing of even larger dishes, the classic draining area with its design and dimensions provides sufficient comfort for drying the washed dishes.

The components of the Notus 765.0E sink include an **eccentric control**. The automatic drain closure is a system that allows you to close and open the water drain with a button. An important advantage of this solution is that one movement is enough for immediate unlocking of the water, without having to immerse your hands. The sink already has a hole drilled for the faucet and eccentric control. It is also possible to create an additional hole in the sink, for example, for a built-in soap dispenser.

The advantage of a granite sink is its **color variability** and the possibility to match it with the rest of the kitchen, easy maintenance, and attractive design. The main advantages include excellent resistance to impact, scratches, and high temperatures.

The sinks by Aquasanita are made of a very high-quality granite material **SILISCANA**, it is a third generation granite known for its strength and durability.
