The company **Aquasanita** is one of the most well-known manufacturers of kitchen equipment on the market. They export over 80% of their products to more than 30 countries worldwide. Aquasanita sinks and faucets meet the most demanding requirements for processing and quality of construction.

The very modern and practical **Sabia 5523** kitchen faucet without a shower by Aquasanita brand will look great in any kitchen.

The surface of the sink faucet is made of crushed granite. A black granite faucet, as well as a sand, white or gray one, will perfectly complement a granite sink in similar shades. Of course, it is also possible to use this lever faucet with stainless steel sinks, where it will enhance the overall impression of the washing center.

The Sabia 5523 sink faucet is a **higher model** that facilitates washing of large pots and baking sheets. It

also makes filling pots and kettles with water easier.

The granite sink faucet is equipped with a high-quality 40mm ceramic cartridge from the Kerox brand and a water-saving Neoperl aerator. The surface of the faucet is cleaned similarly to the sink made of the same material, if necessary, simply wipe it with a damp cloth and regular soap.

### **Key features of the AQUASANITA SABIA 5523 kitchen faucet**

- granite faucet Sabia 5523 in white, black, gray, and beige
- high-quality lever faucet from the trusted brand Aquasanita
