The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

The granite / gneiss sink **Aquasanita Helika Tesa 620.5E** is designed to reflect both international trends and consumer needs. Clean lines, sharp edges - everything needed for a modern, classic, or minimalist interior.

In the drip tray part of the sink, you will certainly be interested in the so-called pallet grooves/lines, which are not only a great structural element, but also help to remove water from the granite surface. The water from the drip tray **simply drains away** back into the sink using these lines. Convenience is the main aspect of this sink. The sink bowl is sufficiently spacious (depth of 20 cm). It provides enough space for rinsing and washing large pots and baking sheets.

Part of the Tesa 620.5E sink equipment is also **eccentric control**. Automatic drainage closure is a

system that allows you to close and open the water drainage using a button. The important advantage of this solution is the fact that one movement is enough for immediate unlocking of water without having to submerge your hands.

The advantage of a granite sink is its **color variability** and the possibility to match it with the rest of the kitchen, easy maintenance, and attractive design. The main advantages include excellent resistance to impact, scratches, and high temperatures.

The sinks by Aquasanita are made of a very high-quality granite material **SILISCANA**, it is a third generation granite known for its strength and durability.

Key features of the AQUASANITA HELIKA TESA 620.5E kitchen sink

- granite sink with a drainer and eccentric control
- Tesa 620.5E has an extended warranty of 5 years.
- The advantage is the color variability and the possibility to match it with the rest of the kitchen.
- it is a popular choice among customers for smaller kitchen spaces
- sufficiently deep 20 cm sink basin
- The sink is intended for top mounting.
- suitable for a cabinet of 45 cm
- made of high-quality materials

Note: Colors may slightly differ in reality compared to the photographs, as granite contains natural fillers and pigments.

Final tip : descale using a one-to-three solution of vinegar. Apply the solution to the surface of the sink, leave for a few minutes and remove with a sponge. A more fragrant way is to rub limescale with a cut lemon.

Parts of the packaging:
