## Aquasanita - Helika Výpusť AQP 601

Manuální ovládání, včetně kulaté krytky přepadu. Plní funkci špuntu a sítka.

We offer the sink drain **Aquasanita AQP 601** in black finish, which easily matches the entire washing center in a uniform Black metallic color.

The sink drain is manually operated using the central button. When pressed, it closes the drain, when pulled out it functions as a strainer (which can be completely removed). The package also includes an overflow in the chosen color variant, see photo.

- is suitable only for internal diameter 31/2"
- made of PP+EVA\*
- function open/close plug

\* *PP* = polypropylene *EVA* = *Ethylene* vinyl acetate.

*Elastomeric polymers used to produce flexible materials. Thanks to their unique composition, they belong among the most lightweight, yet elastic and soft materials.* 

## Parameters

## In general

| Warranty:                        | 2 years  |
|----------------------------------|----------|
| Control:                         | Manual   |
| Average discharge.:              | 9 cm     |
| Robbery:                         | Yes      |
| Sifon:                           | No       |
| Product TARIC code:              | 73072980 |
| Package dimensions (cm)          |          |
