Axis Kitchen is a European brand of kitchen equipment, specializing in the production and sale of high-quality granite sinks. The company is among the market leaders in the segment of sinks and kitchen faucets. The products are characterized by attractive design and high-quality craftsmanship.

Favorite granite single-bowl sink **Axis Mojito 570E** in an elegant design. It belongs to the best-selling models thanks to its attractive design and ideal dimensions. The simple, unobtrusive look is suitable for most common kitchens.

The biggest advantage of the sink is the spacious basin, which will provide you with **maximum comfort** when washing large dishes, such as baking sheets or pots. You can use the top edge of the sink to install a faucet, a waste disposer, but also to drill an additional hole for a soap dispenser or a push button for operating the waste disposal unit.

To fill and drain the water in the bathtub, an **eccentric control** of the drain, which is part of the supply, is used. The automatic drainage closure system is a system that allows you to close and open the water drain using a button. An important advantage of this solution is the fact that one movement is enough for immediate water drainage without having to submerge your hands.

The Axis Mojito 570E sink has a very smooth surface and is offered in four colors. The main advantages of granite sinks include their resistance to scratches, thermal shocks, high temperatures, and impacts.

Key features of the AXIS MOJITO 570E kitchen sink

- granite sink with eccentric control
- in the colors white, black, gray, and coffee-colored
- The Mojito 570E comes with an extended 10-year warranty.
- It is among the most popular sinks of our customers.
- sufficiently deep (16 cm) basin of the sink for comfortable dishwashing
- automatic drainage closure - the eccentric is a part of the sink equipment
- granite sink resistant to scratches and high temperatures
- The sink is suitable for a cabinet of 60 cm.
- top mounting of the sink

A little trick: once a week, we recommend impregnating the sink with edible kitchen oil. Wipe the dry and clean sink with a cloth soaked in oil. Leave it for a few minutes and then wipe it off with a clean cloth. This way, you will create a protective layer and give the sink a beautiful appearance. The sink will be like new again.

Parts of the packaging:

- Sifon
- Excentric control
- Assembly brackets
- Release.
- Assembly instructions
- Robbery
