Axis Kitchen is a European brand of kitchen equipment, specializing in the production and sale of high-quality granite sinks. The company is among the market leaders in the segment of sinks and kitchen faucets. The products are characterized by attractive design and high-quality craftsmanship.

Granite sink with a drainer **Axis Mojito 780.0E** in a simple design is one of the best-selling models due to its attractive design and ideal dimensions. Its simple and unobtrusive appearance is suitable for most common kitchens.

The model of the granite sink Mojito 780.0E is narrower, so if you're tired of a stainless steel sink, this size of granite sink is absolutely ideal for replacement without cutting into the countertop.

The bathtub and storage surface are large enough for everyday use, even in a household without a dishwasher. The sink chamber with a depth of 16 cm is sufficient for comfortable dishwashing. You can use the practical draining area for storing dishes, vegetables, or defrosting food. Holes can be drilled into the sink for a faucet, soap dispenser, eccentric controls, or a disposal switch.

The Mojito 780.0E kitchen sink is designed for **top mounting**, with a minimum cabinet width of 50 cm. The sink's equipment includes an eccentric control. The automatic drain closure is a system that allows you to close and open the water drain using a button. An important advantage of this solution is the fact that one movement is enough for immediate unlocking of the water, without having to immerse your hands.

The advantage of a granite sink is its **color variability** and the possibility of matching it with the rest of the kitchen, easy maintenance, and attractive design. The main advantages include excellent resistance to impacts, scratches, and high temperatures. The surface of the sink is extremely smooth, so the

maintenance of the sink will be very easy.

Key features of the AXIS MOJITO 780.0E kitchen sink

- granite sink with a practical drainer and with eccentric control
- in the colors white, black, gray, and coffee-colored
- Mojito 780.0E has an extended 10-year warranty.
- It is among the most popular sinks of our customers.
- sufficiently deep (16 cm) basin of the sink for comfortable dishwashing
- practical tip for dishwashing
- automatic drainage closure - the eccentric is a part of the sink equipment
- granite sink resistant to scratches and high temperatures
- The sink is suitable for a cabinet of 50 cm.
- top mounting of the sink

A little trick: once a week, we recommend impregnating the sink with edible kitchen oil. Wipe the dry and clean sink with a cloth soaked in oil. Leave it for a few minutes and then wipe it off with a clean cloth. This way, you will create a protective layer and give the sink a beautiful appearance. The sink will be like new again.
