The technical single-chamber sink **Deante Nerez 533** is manufactured by the well-known Polish sink manufacturer Deante. Deante has been on the market for over 30 years and represents a guarantee of quality. Deante brand products are called ProEco, which means they use natural materials for production. The company is also environmentally friendly, using Eco packaging.

The Stainless Steel Sink 533 is **made of stainless steel** (steel 340) with a thickness of 0.8 mm. The sink is intended for utility rooms, garages, cellar spaces, cleaning rooms, laundries, or for outdoor garden kitchens.

The technical stainless steel sink 533 can be **mounted on the wall**, therefore a worktop is not needed. However, the sink can also be placed in a line as shown in the photo. It will look great in an outdoor kitchen.

The Deante Nerez 533 technical sink chamber is resistant to scratching, thermal shock, or **high temperatures (up to 250°C)**. You can safely wash garden tools in the sink, pour boiling water, or place warm dishes. The surface of the chamber does not retain odors, is resistant to all types of dirt, and has antiseptic properties.
