

Donner STAND with a drip tray

Stojan pro automatický dávkovač Donner Mist / univerzální

EAN: 8596220007780

60,24 €

50,20 € bez DPH

Stojan Donner STAND is designed for Donner MIST gel and liquid disinfectant dispensers. However, after drilling new holes or attaching double-sided adhesive tape, it can also be used as a universal stand for any dispenser.

Thanks to the drip tray, the floor beneath the dispenser is always dry and clean. The clean and elegant design of the stand is perfect for representative spaces. Thanks to its sufficiently heavy base and metal construction, the dispenser stand is very stable and durable.

The stand is height adjustable within a range of 30 cm. We offer the Donner STAND stand only in black design.
