Removable rubber collar with a diameter of 85mm for EcoMaster EVO3 (In Sink Erator) waste disposers with a 3-Bolt Mount throat.

Cleaning and maintenance

We recommend occasionally removing and cleaning with a brush the bottom side of the protective rubber cuff – dirt catchers (Fig. 1), where particles of crushed waste can accumulate and eventually start to decompose. You can also put the cuff in the dishwasher. After some time or in case of damage, replace the cuff with a new one.
