The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food.

The kitchen sink **Granisil Arcos 770.0** is an aesthetic and at the same time versatile element for any kitchen. Whether you are seeking inspiration in any style such as Scandinavian, minimalist or rustic, the Arcos 770.0 sink will be just right!

The Arcos 770.0 sink is an ideal choice for cooking enthusiasts. The kitchen sink with **long drainer** will provide you with even more comfort and extend the work surface. The drainer is efficiently shaped with grooves that facilitate water drainage. It can also be used for drying dishes.

It is possible to drill holes for the installation of a kitchen faucet or for a built-in soap dispenser into the sink upon request. The kitchen sink has cleverly concealed overflow in the middle of the draining surface. The overflow protects the sink from potential overflow.

The package of the sink includes a **space-saving siphon** that saves space under the sink in the cabinet. Thanks to this, you can place, for example, a bin for sorted waste under the sink. The included siphon also has the option of being connected to a dishwasher or washing machine.

The **innovative NANO Granite technology** is used in production, providing a strong molecular structure and a perfectly smooth surface of the sink that is easy to clean. Granisil brand kitchen sinks are resistant to high temperatures, impacts, thermal shocks, scratches, and stains. Granisil sinks are made from the highest quality mixture of granite aggregate (80%) and resin (20%).

Key features of the kitchen sink GRANISIL ARCOS 770.0

- granite kitchen sink in black with a drip tray
- Arcos 770.0 has an extended 10-year warranty.
- new highly sought-after model of a sink
- sufficiently deep tub
- The sink is intended for top mounting.
