The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food.

**Granisil Bairo 755.0** granite sink from the prestigious Granisil collection is a spacious and deep (19 cm) model designed for demanding users. The perfectly smooth surface of the sink fits beautifully into any kitchen decor and style. It meets all requirements for aesthetics and design.

The kitchen sink will pleasantly surprise you with its **thoughtful details**. The sufficiently long and shaped drainer with practical grooves facilitates water drainage and is ideal for drying dishes. The rounded edges of the sink make cleaning and overall care of the sink easier.

It is possible to drill holes into the sink according to requirements for the installation of a kitchen faucet or for a concealed dishwasher. Sink Bairo 755.0 features **hidden overflow** inside the sink basin, as shown in the photo. The overflow protects the sink from overflowing.

The packaging of the sink includes a **space-saving siphon**, supplied by an Italian manufacturer. The siphon saves space in the cabinet under the sink. It is possible to place, for example, a bin for sorted waste under the sink. The included siphon can be connected to a dishwasher or washing machine. Easy installation of the sink. The sink is designed for a cabinet of 45 cm.

Sinks by the brand Granisil are manufactured using innovative technology **NANO Granite**. The products are highly resistant to high temperatures, impacts, thermal shocks, scratches, and stains. Granisil sinks are made from the highest quality blend of granite aggregate (80%) and resin (20%).
