The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food. Granisil sinks are manufactured in the EU. Beautiful simple minimalist details of the Cortes 570.5 sink, which will perfectly fit into any interior and design.

**Kitchen sink Cortes 570.5** is specific with its short and slightly slanted drainer, which facilitates water drainage. The surface is intended for drying dishes. Perfectly rounded sink edges make overall sink care and cleaning easier. Due to its dimensions, the sink is predestined for smaller kitchens.

It is possible to drill holes for the installation of a kitchen faucet or a recessed soap dispenser upon request. The Cortes 570.5 sink features a **hidden overflow** inside the sink bowl, as seen in the photo. The overflow protects the sink from overflowing.

The package of the sink includes a **space-saving siphon** made by an Italian manufacturer. A siphon that saves space in the cabinet under the sink. You can place, for example, a separate waste bin under the sink. The included siphon can be connected to a dishwasher or washing machine. Easy installation of the sink. The sink is designed for a cabinet of 45 cm.

Sinks of the Granisil brand are manufactured using innovative **NANO Granite technology**. The products are highly resistant to high temperatures, impacts, thermal shocks, scratches, and stains. Granisil sinks are made from the highest quality mixture of granite aggregate (80%) and resin (20%).
