The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food.

The **Fabero 770.0** sink is also a product of the Granisil brand, which is designed primarily for demanding users and spacious kitchens where space-saving is not necessary. The kitchen sink features a very spacious draining area and a large, deep sink compartment. The smooth surface of the sink beautifully blends in with any kitchen decor. It is pleasant to the touch and satisfies the aesthetic and design preferences of every fan.

The drainage surface is without visible grooves at a slight slope, making it easier for water to flow into the sink. It is ideal for drying dishes. The sink package includes a so-called **space-saving siphon**, which saves space in the cabinet under the sink. Thanks to the additional space, it is easier to place a waste sorting bin under the sink. The included siphon also has the option of being connected to a dishwasher or washing machine.

The Fabero 770.0 sink **can be equipped with holes** for installing a kitchen faucet, a built-in soap dispenser, or a button for controlling the kitchen waste disposal. Additionally, the sink has an overflow that protects it from potential spillage.

Granisil sinks are made using Nano Granit technology, thanks to which they are resistant to high temperatures, impacts, thermal shocks, scratches, and stains. The high quality of materials, durability, and natural durability of granite ensure a long lifespan for the sinks - Granisil sinks come with a 10-year warranty. Granisil sinks are made from the highest quality mixture of granite aggregate (80%) and resin (20%).

Key features of the kitchen sink GRANISIL FABERO 770.0

- granite kitchen sink in black with a drip tray
- The Fabero 770.0 comes with an extended 10-year warranty.
- new highly sought-after model of a sink
- sufficiently deep tub 19 cm
- The sink is intended for top mounting.
