The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food.

The kitchen sink **Granisil Lago 680.0** is an aesthetic and at the same time versatile element for every kitchen. Whether you are looking for inspiration in any style such as Scandinavian, minimalist, or rustic, the Lago 680.0 sink will be the right choice!

The Lago 680.0 sink is an ideal choice for cooking enthusiasts. The kitchen sink with a shorter **drainer** will provide you with convenience and expand the workspace. The drainer is efficiently shaped with grooves that facilitate water drainage. It can also be used for drying dishes. The sink is intended for smaller kitchens where space is saved on the kitchen counter.

It is possible to drill holes for the installation of a kitchen faucet or for a built-in soap dispenser into the sink upon request. The kitchen sink has cleverly concealed overflow in the middle of the draining surface. The overflow protects the sink from potential overflow.

The package of the sink includes a **space-saving siphon** that saves space under the sink in the cabinet. Thanks to this, you can place, for example, a bin for sorted waste under the sink. The included siphon also has the option of being connected to a dishwasher or washing machine.

The **innovative NANO Granite technology** is used in production, providing a strong molecular structure and a perfectly smooth surface of the sink that is easy to clean. Granisil brand kitchen sinks are resistant to high temperatures, impacts, thermal shocks, scratches, and stains. Granisil sinks are made from the highest quality mixture of granite aggregate (80%) and resin (20%).

Key Features of the GRANISIL LAGO 680.0 Kitchen Sink

- granite kitchen sink in black with a shorter drip tray
- Lago 680.0 comes with an extended 10-year warranty.
- new highly sought-after model of a sink
- sufficiently deep tub
- The sink is intended for top mounting.
- suitable for a cabinet of 45 cm
- innovative technology NANO Granite
- made of the highest quality mixture of granite aggregate and resin

How to keep the sink always like new?... Regular care is sufficient. Cleaning is not difficult at all, a damp soft sponge for dishes and a little common dish soap will do. Wash the sink with circular motions, especially carefully around the faucet and drain. Then rinse with clean water and dry.
