**128,04 €**

106,70 € bez DPH

The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food.

The classic **granite kitchen sink Proba 765.0** with a drainer from Granisil is an ideal solution for most common kitchens. It is the perfect choice for cooking enthusiasts.

The kitchen sink Proba 765.0 with a long draining surface provides more convenience and extends the workspace. The drainer is efficiently shaped with grooves that facilitate water drainage into the sink. The surface also serves for drying individual dishes.

It is possible to drill holes according to request in the Proba 765.0 sink, such as a hole for installing a kitchen faucet or for a built-in soap dispenser, or for a button to control the kitchen waste disposer. The kitchen sink is equipped with **an overflow** that protects the sink from potential overflow.

The package of the sink includes a **space-saving siphon** that saves space under the sink in the cabinet. Thanks to this, you can place, for example, a bin for sorted waste under the sink. The included siphon also has the option of being connected to a dishwasher or washing machine.

The **innovative NANO Granite technology** is used in production, providing a strong molecular structure and a perfectly smooth surface of the sink that is easy to clean. Granisil brand kitchen sinks are resistant to high temperatures, impacts, thermal shocks, scratches, and stains. Granisil sinks are made from the highest quality mixture of granite aggregate (80%) and resin (20%).

**Key features of the GRANISIL PROBA 765.0 kitchen sink**

- granite kitchen sink in black with a drip tray
- Proba 765.0 comes with an extended 10-year warranty.
- new highly sought-after model of a sink
- sufficiently deep basin 16 cm
- The sink is intended for top mounting.
- suitable for a cabinet of 45 cm
- innovative technology NANO Granite
- made of the highest quality mixture of granite aggregate and resin

*How to keep the sink always like new?... Regular care is sufficient. Cleaning is not difficult at all, a damp soft sponge for dishes and a little common dish soap will do. Wash the sink with circular motions, especially carefully around the faucet and drain. Then rinse with clean water and dry.*
