We offer a prestigious **Lira** brand sink drain in several color options. This way, you can perfectly match the color of your kitchen faucet and drain.

A ceramic or granite sink with all the accessories will create a cohesive look. You can beautifully unify the character of the entire washing center, for example, in the style of Provence or retro.

The sink drain is manually operated using the central button. When pressed, it closes the drain, when pulled out it functions as a strainer (which can be completely removed). The package also includes an overflow in the chosen color variant, see photo.

Ceramic sinks with double bottoms and integrated overflow can be attached to a maximum thickness of the bottom of 3.5 cm (4 cm).

We do not guarantee compatibility with the accessories of the given sink. In some cases, it is necessary to purchase suitable components for installation (transition parts, etc.).

Parameters

In general

Warranty:	2 years
Control:	Manual
Average discharge.:	9 cm
