The granite sink **Reginox Harlem 1000.10** is a very smart solution for customers who are looking for a simple and practical design.

The sink is single-bowl with a bowl and a sufficiently large drainer. You can comfortably wash the necessary dishes in the large bowl, and the smaller one can be used for rinsing vegetables, fruits, defrosting meat, or storing smaller containers. At the same time, the sink has a sufficiently large surface for draining larger pots and pans.

The sink is made of very high-quality materials, resistant to high temperatures. Holes can be drilled into the sink for the installation of a faucet, soap dispenser or buttons for controlling the kitchen waste disposal.

The advantage and benefit of **Reginox** brand products is not only their high-quality material and design, but also the smooth surface of the sinks, and therefore their easier subsequent maintenance.

Less dirt settles on smooth surface. **Reginox** sinks are resistant to impacts, scratches, and other mechanical damage.

## Parts of the packaging:

- Sifon
- Assembly brackets
- Release.

# Parameters

## Basic parameters
