The elegant **granite sink Mini Amsterdam 760.0** from the Dutch manufacturer Reginox features a spacious bowl and a drainer. Thanks to its clean lines and minimalist design, it fits perfectly into a kitchen with a modern style.

The 18 cm deep sink is sufficient for comfortable washing of most dishes. You can use the **practical drain** for storing dishes, vegetables during cleaning, or defrosting food. On request, we will drill additional holes in the sink for a soap dispenser or garbage disposal control free of charge. The sink is installed from the top, with a minimum cabinet width of 60 cm.

The sink is made of granite (80% crushed marble, high-quality pigments, and resin). **Granite** has excellent mechanical properties due to its natural composition. A granite sink is not easy to scratch, can withstand hot water, and is colorfast. The surface of Reginox sinks is exceptionally smooth, and any dirt has nowhere to settle. Maintenance is done simply by wiping with a damp cloth.
