144,12 €

120,10 € bez DPH

One of the most well-known manufacturers and suppliers of bathroom accessories is **EISL Sanitary GmbH**, whose existence dates back to 1980. The company's motto is: a reliable partner for everything related to kitchens and bathrooms. Products made of high-quality materials that meet drinking water requirements.

Elegant **Schütte Grande Vita shower set** including a thermostatic faucet. In trendy color options chrome and white or chrome and black. Whether you choose fresh pure white or luxurious black, you will certainly be thrilled.

Set Grande Vita represents a combination of practicality and elegance. Experience unforgettable moments while showering - relax and dream under the rain shower from the overhead shower. **Large-format overhead shower** (approximately 30 x 30 cm) for even greater comfort while showering.

High-quality **hand shower with 5 water flow functions**. Nozzle options: rain shower, massage, mist flow, combined nozzle functions.

The shower set includes a thermostatic mixer with a ½" (Ø approx. 1.9 cm) ceramic cartridge. Including a so-called **safety stop at 38 °C**. It minimizes the risk of scalding.

Shower heads are equipped with projections called EASY CLEANING Anti-lime nubs, which prevent the build-up of lime scale. Simply wipe them.

Stylishly integrated switch on the side of the shelf for easy switching between the overhead and handheld shower. A very pleasant addition is a shelf in white or black color, which you can use to store shower gel, shampoo, etc.

Key features of the SCHÜTTE GRANDE VITA shower set

- color options white / chrome or black / chrome
- The Schütte Grande Vita shower set has a two-year warranty.
- there are anti-limescale tips on both manual and overhead showers
- The set includes a thermostatic valve with scald protection.
- large format overhead shower with a diameter of 30 cm
- hand shower with 5 functions, with a diameter of 12 cm
- shower head length 150 cm
- integrated switch
- height-adjustable wall bracket - for easy installation

Note: The battery is factory set and tested at a pressure of 3 bar on both inlets. Under these conditions, the battery's functionality is optimal with any type of water heating. For pressures over 5 bar, we recommend the installation of a pressure reducing valve.
