126,80 € bez DPH

One of the most well-known manufacturers and suppliers of bathroom accessories is **EISL Sanitary GmbH**, whose existence dates back to 1980. The company's motto is: a reliable partner for everything related to kitchens and bathrooms. Products made of high-quality materials that meet drinking water requirements.

The refined design **shower set Schütte Waterway** will become the focal point of your bathroom. The idea that the bathroom is merely a place for everyday hygiene is long gone. The fundamental values are primarily diversity, product quality, and customer individuality.

The elegant wall-mounted shower set Schütte Waterway, of top quality, offers a perfect showering experience. **Extra large shower head** will envelop you in a water dream.

The shower set includes a **luxurious shelf in an elegant white color**, which can be used, for example, to store shower gel or shampoo. In the middle, there is a button that allows you to easily switch the water flow between the overhead and handheld shower.

Innovative **single-lever faucet** that allows easy regulation of the water quantity and shower

temperature.

The main advantages of the Waterway shower set include its dimensions. It can be easily installed even in narrow shower corners. The shower heads are equipped with protrusions that prevent the build-up of limescale. Simply wipe it off.

The ideal choice for renovation or replacement of a shower panel is the Waterway shower panel, which has a height-adjustable wall bracket. For installation, simply use the existing holes in the wall.
