The **Colorado** kitchen faucet perfectly captures originality and practicality. The faucet is made by the Czech company Slezák - Rav CZ, s.r.o., which emphasizes honesty and tradition. The company has been operating in the market since 2001. An above-standard ten-year warranty applies to products of the Slezák Rav CZ brand.

The Colorado arch kitchen faucet features a so-called **flexible spout**. This allows you to easily fill a pot with water or rinse the sink from any residue. With a simple twist of the spout, you can switch the faucet to a shower and back. Thanks to the combination of a flexible head, this faucet is an ideal choice for double sinks or sinks with a dish rack.

The Colorado sink faucet is equipped with a **ceramic cartridge** with a diameter of 35 mm (KA3502). Both the spout and the body of the faucet come in a matte black color. The package includes an installation kit and an accompanying manual that will facilitate the entire installation. The faucet package

comes with two connecting hoses (connections for hot and cold water).

Key features of the RAV Slezák Colorado CO106.0/13CMATC kitchen faucet

- attractive kitchen faucet in a modern design
- color combinations black matte / chrome or / gold
