Vysoce kvalitní filtr, který stabilizuje uhličitán vápenatý a odstraňuje nečistoty.

EAN: 8596220012852

**7,56 €**

6,30 € bez DPH

The replacement water filter **Spring Source CMF001** is compatible with the **Jura Clearyl BLUE** filter. The filter is designed for Jura coffee machines and is installed directly into the water reservoir. It adjusts the pH of the water to neutral.

**Spring Source CMF001 Filter** contains high-quality ion exchange resin and activated carbon, which stabilize calcium carbonate and remove impurities. This improves the taste and aroma of coffee. The filter increases the performance and efficiency of the coffee maker. It also prolongs its lifespan by keeping the machine clean. It prevents the coffee maker from getting contaminated due to calcium deposits.

The Spring Source CMF001 water filter takes care of improving water quality and **prevents the formation of limescale** inside the coffee machine.

The filter is made of food-grade materials certified by NSF, without any lead content. It does not contain any harmful substances. It complies with European regulations on food quality EC-1935/2016, ROHS, REACH, BPA-Free, TUV.

We recommend **changing the filter every two months** in the coffee maker. The replacement of the filter is very quick and easy.

## Key features of the Spring Source CMF001 water filter

- certified by NSF42, WQA, TUV Certification
- high-quality lead-free filter cartridge
