Vysoce kvalitní filtr, který zlepšuje chuť a kvalitu vody.

EAN: 8596220012913

14,40 €

12,00 € bez DPH

The replacement water filter for Spring Source RWF2900A refrigerators is compatible with Samsung refrigerators (model DA2900003F) that have a filter inside the refrigerator.

The **Spring Source RWF2900A Water Filter** is designed for refrigerators that have a source of drinking water and an ice maker.

The filters are certified by NSF/ANSI 42 & 372 Lead-free from NSF and IAPMO, European Food Grade Regulations EC-1935/2016, ROHS, REACH, BPA free, TUV, and Australian watermark.

The Spring Source RWF2900A water filter **removes unwanted substances from water**, such as chlorine (up to 99%), THM, VOC, and other impurities. It significantly improves the taste of drinking water while preserving the beneficial minerals for the human body. The filter is made without BPA and is made of advanced coconut shell carbon. The outer layer has a 0.5 micron rating, which ensures better filtration. The filters are tested by an independent laboratory.

We recommend changing the filter approximately every **six months**. If you do not replace the filter on time, it will lose its filtration abilities. This means that you and your family may be consuming harmful bacteria, impurities, chemicals, and unwanted particles. This carbon filter is thus the ideal solution for clean and safe drinking water.

Key features of the Spring Source RWF2900A water filter

- certified NSF/ANSI 42 & 372 Lead-free by NSF and IAPMO
- high-quality lead-free filter cartridge
- it effectively removes impurities, odors, heavy metals, bacteria, and chlorine
