Vysoce kvalitní filtr, který zlepšuje chuť a kvalitu vody.

EAN: 8596220013026

14,40 €

12,00 € bez DPH

The replacement water filter for refrigerators **Spring Source RWF700A** is compatible with Samsung brand fridges **DA2900020A DA2900020B** that have the filter inside the fridge.

The **Spring Source RWF700A water filter** is intended for refrigerators that have a source of drinking water and an ice maker.

The filters are certified by NSF/ANSI 42 & 372 Lead-free from NSF and IAPMO, European Food Grade Regulations EC-1935/2016, ROHS, REACH, BPA free, TUV, and Australian watermark.

The Spring Source RWF700A water filter **removes unwanted substances from water**. Such as chlorine (up to 99%), THM, VOC, and other impurities. This significantly improves the taste of drinking water while preserving mineral substances that are beneficial to the human body. The filter is made without BPA and is made from advanced coconut shell carbon. The outer layer is 0.5 microns, ensuring better filtration. The filters are tested by an independent laboratory.

We recommend changing the filter approximately every **six months**. If you do not replace the filter on time, it will lose its filtration abilities. This means that you and your family may be consuming harmful

bacteria, impurities, chemicals, and unwanted particles. This carbon filter is thus the ideal solution for clean and safe drinking water.

Key Features of the Spring Source RWF700A Water Filter

- certified NSF/ANSI 42 & 372 Lead-free by NSF and IAPMO
- high-quality lead-free filter cartridge
- it effectively removes impurities, odors, heavy metals, bacteria, and chlorine
