The European premium brand **Villeroy & Boch** dates back to 1748. With its products, it is present in over 125 countries worldwide. Villeroy & Boch is an innovative company with a long tradition - it is one of the most important brands in Germany, Europe, and the world. As a ceramics manufacturer, it has evolved into an international lifestyle brand.

The stylish, luxurious ceramic modular sink Villeroy & Boch Single 595 Mosaic will bring a timeless and original design to your kitchen. The geometric mosaic on the front panel of the Single 595 sink will catch your eye and captivate you at first glance. The sink will become the focal point of the kitchen and add a dose of originality. With its appearance, the sink will fit perfectly into the rural, so-called Hugge style. This style is an absolute trend in the field of housing and lifestyle. It is a trend that emphasizes the details that provide a cozy feeling.

The Single 595 sink basin is sufficiently deep (18 cm) for comfortable dish washing. The **standalone modular sink** is designed for a 60 cm cabinet. We classify Villeroy & Boch Single 595 Mosaic in the category of modular sinks. This means that they are not permanently connected to the countertop. They are mounted directly on the installation cabinet, and the countertop either fits snugly on both sides or overlaps the edges of the sink from above. Modular sinks are preferably recommended for installation with non-absorbent countertops. If a solid wood countertop is to be used, it is necessary to ensure high-quality impregnation of the edges of the cutouts in the countertop.

The advantage of a ceramic sink is its **easy maintenance, color fastness**. Neither long-term exposure to sunlight nor even aggressive materials will change the color or surface of the sink. The surface of the Villeroy & Boch Single 595 Mosaic sink is treated with the **CeramicPlus** system, which means that the sealed non-porous ceramic surface prevents dirt, cooking waste, and unsightly limescale from sticking to

your kitchen sink. The time spent in the kitchen will thus become a real pleasure.
