The luxury European premium **brand Villeroy & Boch** dates back to 1748. It is represented in over 125 countries worldwide with its products. Villeroy & Boch is an innovative company with a long tradition - it is one of the most important brands in Germany, Europe, and the world. As a ceramics manufacturer, it has evolved into an international lifestyle brand.

Villeroy & Boch Single 595 Sink will not only look great in a modern kitchen, but also in kitchens in the so-called Provence style or Hugge style. With its simple aesthetic, it will blend in with any environment. The sink exudes a luxurious yet minimalist impression.

The Single 595 kitchen sink features a main large compartment where you can comfortably wash larger dishes such as baking trays. Villeroy & Boch Single 595 belongs to the category of **modular sinks**. This means that they are not permanently connected to the countertop. They are mounted directly onto the installation cabinet, and the countertop is either attached to both sides or overlaps the edges of the sink from the top. Modular sinks are preferably recommended for installation with countertops made of non-absorbent materials. If a solid wood countertop is to be used, care must be taken to properly impregnate the edges of the cutouts in the countertop.

The advantage of a ceramic sink is its easy maintenance and color stability. Neither prolonged exposure to sunlight nor even aggressive materials will change the color or surface of the sink. The surface of the Villeroy & Boch Single 595 sink is treated with the CeramicPlus system, meaning that the sealed non-

porous ceramic surface prevents dirt, cooking waste, and unsightly limescale from sticking to your kitchen sink. The time spent in the kitchen will thus become a real pleasure.

Key features of the VILLEROY & BOCH SINGLE 595 kitchen sink (Single-bowl sink 632061)

- ceramic sink in matte black, glossy black, or pure white
- Single 595 has an extended warranty of 5 years.
- ideal choice not only for traditional rustic kitchens, but also for modern interiors
- modular installation of a sink
- Original and luxurious design
- high-quality ceramic sink made from 100% natural materials
- traditional craftsmanship, supported by 270 years of ceramic experience
- Thanks to CeramicPlus, it is easily maintained in cleanliness.

A ceramic sink is fired in kilns and the glaze is applied by hand, making each piece unique. It is necessary to take into account a tolerance of +/- 1-1.5 cm in dimensions. We recommend having the sink physically available for the realization of the kitchen counter.
