The prestigious Polish company **Zelvo** specializes in the production of technical sinks and castings for a wide range of industrial uses. These are very high-quality sinks at an affordable price.

The technical sink **Eko 460 by Zelvo** is made of Polypropylene (thermoplastic polymer), also known as rigid plastic. This type of sink is suitable especially for cellar spaces, workshops, garages, gardens, and all technical and cleaning areas, production halls, and can also be used as a drain where traditional kitchen sinks are not necessary.

The Eko 460 sink is mounted to the wall, therefore **a worktop is not needed**. It is also possible to drill a hole for a faucet or a soap dispenser. The package includes mounting screws, a siphon, an overflow, a drain, a plug, and an outlet for a dishwasher.

The sink has become a very popular and sought-after type. If you are looking for a durable, attractive, plastic sink, wall-mounted, suitable for garden or any technical purpose, the Eko 460 in two color options is the right choice for you.

Among the main advantages of the **Polypropylene** material used for production are resistance to extremely high temperatures, low temperatures. The surface prevents rusting, cracking. Resistance to impacts or mechanical damage.
