The prestigious Polish company **Zelvo** specializes in the production of technical sinks and castings for a wide range of industrial uses. These are very high-quality sinks at an affordable price.

The **Maximus 610 sink by Zelvo** is made of Polypropylene (thermoplastic polymer) or hardened plastic. Sinks made of this material are suitable especially next to the washing machine, in the basement, in garages, in garden cottages, and in all technical, cleaning rooms, manufacturing halls as well as a drain, where kitchen sinks are not needed.

The Maximus 610 sink can be **mounted to the wall**, so no worktop is needed. The sink can also be installed in a kitchen unit (top mount). It is also possible to drill holes for a faucet and a soap dispenser with a diameter of 35 mm. The package includes mounting screws, a trap, an overflow, a drain, a plug, and a dishwasher connector.

The sink has become a very **popular and sought-after** type. If you are looking for a durable, attractive, plastic sink with wall mounting, suitable for a garden or any technical purpose, the Maximus 610 is the right one for you at a favorable price and in two color options.

Among the **main advantages** of the material used for the production of Polypropylene are resistance to

extremely high temperatures and low temperatures. The surface prevents rusting and cracking. Resistance to impacts or mechanical damage.

Key features of the ZELVO MAXIMUS 610 technical sink

- we offer a sink in white and gray color
- Maximus 610 has an extended 5-year warranty.
- made of Polypropylene, also known as hardened plastic
- optimal choice for technical rooms, garages, garden houses, production halls
